

DAVIS BIKE SCAVENGER HUNT 2024

THE GREAT

BOTANIC PANIC!

Leaf no one behind!

PLANT BUREAU OF INVESTIGATION

DATE: 06-01-24
 LOCATION: DAVIS, CA
 TITLE: THE GREAT BOTANIC PANIC

ATTENTION

This journal was found when PBI agents time traveled to investigate the Mesozoic jungle (when dinosaurs roamed the Earth) where Dr. Bud went missing.

YOUR MISSION

Find Dr. Bud's secret location by decoding the clues she left behind in this field journal.

PERSON INTEL

Before you begin your mission, here is a rundown of who to be on the lookout for.

DR. ROSE BUD
 She always looked forward to her trip to the Mesozoic Era so she can study ancient plants. Little did she know that her colleague would betray her and drive her into hiding.

RATWOOD
 A sweet and adorable little mouse. He's often worried and scared of everything! But he doesn't let that stop him from helping his friend, Dr. Bud.

DR. S. HARPER THORNE
 Dr. Bud's best friend turned arch nemesis! She wants to steal Dr. Bud's research and she and her minions are the ones to watch out for! Don't let them stop you!

SEEDLING
 He is as sly as he is mysterious. Full of tricks and evil schemes, this crow will do anything for Dr. Thorne by any means.

TO WHOEVER FINDS THIS...

It has become clear now that I have to go into hiding. Dr. Thorne is after me, and I cannot let her find me or my notes. I have hidden this notebook in a secure location. If any PBI agents, or my beloved pet, Ratwood, find this, follow these instructions.

And, watch out for Dr. Thorne!

STEP 1: Solve the clue to take you to each of the 9 locations.

STEP 2: At each location, complete the mission to obtain the stickers of my field drawings.

STEP 3: After obtaining all the stickers, decode the red letters in the plant names on them. This will reveal my hiding spot.

Good luck!

-Dr. Rose Bud

DR. THORNE'S PARLOR

Find your next stop on this 23-acre farm, where students grow flowers and produce; just feel that UC Davis charm!

SMELL THAT PLANT

Where the Domes stand, the flora is far from bland. Around the corner on Blue Ridge Road, there's a garden in need of a hand.
